## PROJECTS

## Tic-Tac-Toe Game using HTML & Js

Tic-tac-toe is one of the most-played games of all time. It is a two-player game consisting of a 3×3 grid which is empty initially and as the game proceeds the grid gets filled by Xs and Os. Once any of its rows vertically or diagonally is filled with the same character, tic tac toe game is finished.

## Amazon and Spotify clone sites using React.js

Created a clone website for Amazon using the react hooks and props with firebase as a database, with the user's authentications and logins, and a Spotify clone using the Spotify developer tools in react
